Challenge

“Few libraries exist in a vacuum, accountable only to themselves. There is always a larger context for assessing library quality, that is, what and how well does the library contribute to achieving the overall goals of the parent constituencies?”

Sarah Pritchard, Dean of Libraries, Northwestern University (1996)

Strategies: ARL Statistics and Assessment

...To describe and measure the performance of research libraries and their

contribution to

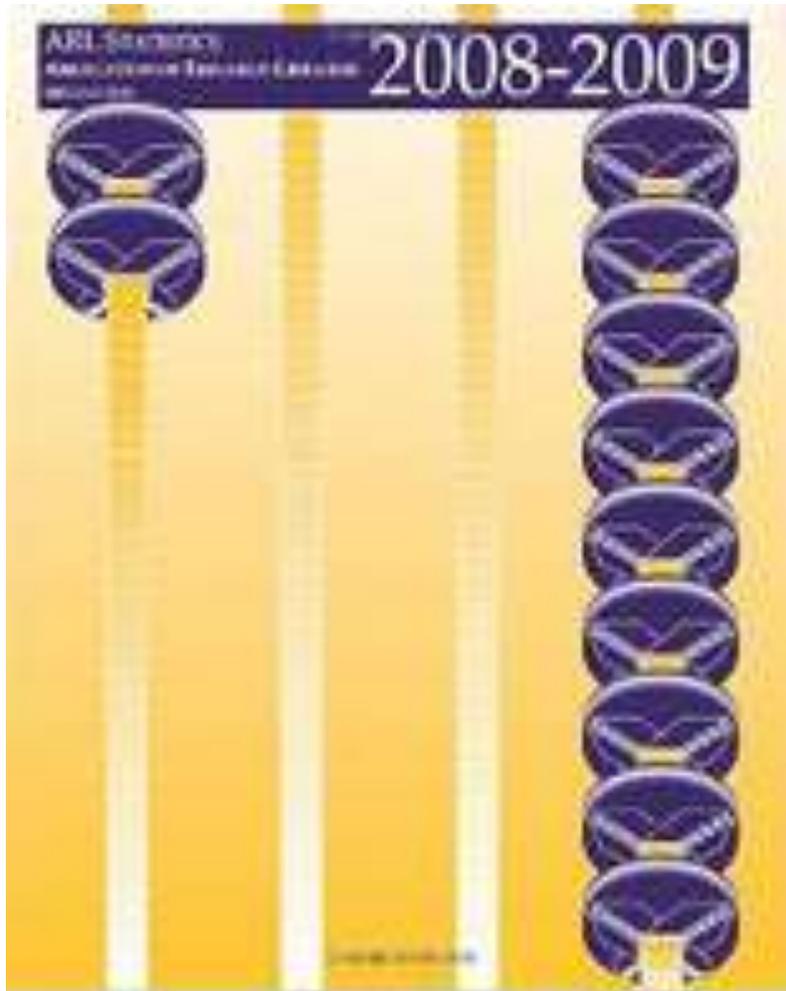

teaching, research,

scholarship and community

service ...

Most reputable data series in HE in North America (1908 – present)

- Serials, monographs to be dropped
- Titles the main unit for content
- Format agnostic
- Expenditures tracked in terms of one-time and continuing commitments
- All service variables are retained plus adding usage for electronic resources

Value  Assessment

“ Assessment is a structured process to **learn** about communities and **evaluate** how well the library supports them.”

- *Steve Hiller, Director of Assessment & Planning
University of Washington Libraries*

Libraries®

What is LibQUAL+®?

LibQUAL+® is a suite of services that libraries use to solicit, track, understand, and act upon users' opinions of service quality. These services are offered to the library community by the Association of Research Libraries (ARL). The program's centerpiece is a rigorously tested Web-based survey bundled with training that helps libraries assess and improve library services ... [more](#)

THE BIRTH OF LIBQUAL+®?

In 1999, Fred Heath and Colleen Cook, both then at Texas A & M University, realized that use of "input" variables, such as collection or serials counts, were limited as measures of library service quality... [more](#)

THE LIBQUAL+® SURVEY?

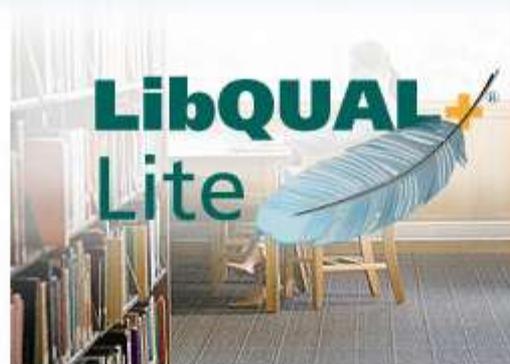

Since 2000, more than 1,000 libraries have participated in LibQUAL+® domestically and internationally, with participating institutions in Africa, Australia, Asia, and Europe.... [more](#)

VIEW A SAMPLE SURVEY?

The LibQUAL+® survey is a two-page, web-based instrument. For more information about the survey instrument, [click here...](#)

How will LibQUAL+® benefit your library users?

Library administrators have successfully used LibQUAL+® survey data to identify best practices, analyze deficits, and effectively allocate resources. LibQUAL+® gives your library users a chance to tell you where your services need improvement so you can respond to and better manage their expectations. Institutional data and reports enable you to assess whether your library services are meeting user expectations—and develop services that better meet these expectations.

LibQUAL+® Top 10 Resources

A Google™ search on "LibQUAL+" yields approximately 100,000 hits, and more than 50 refereed journal articles have been published on the protocol. To use to learn about LibQUAL+®...

UNDERGRADUATES

Texas A&M LibQUAL+® Comments Analysis

“I would like more group study rooms as there never seem to be enough of them”

“We need more book resources”

“I am a distant Student and am only able to be in College Station on the weekends. Unfortunately, ILL is closed on Saturday”

“Extend the open hours on weekends”

“What’s the point of housing a great collection of movies if Students can’t borrow them?”

“The Library’s website can be confusing to navigate”

“The progress in electronic resources has been amazing”

ClimateQUAL[®] Assessment

Measures staff perceptions concerning:

- the library's commitment to the principles of diversity
- organizational policies and procedures, and
- staff attitudes

Organizational Climate

- Organizational climate refers to the interpretative frameworks shared by employees regarding the priorities of their organization and it helps them understand what behavior is rewarded, supported, and expected in the organization (Schneider, 1990).
- Employees develop these organizational perceptions as a result of their attempts to make “sense” of the policies, practices, and procedures endorsed and enacted in an organization.

Organizational Climate

Scales:

- Climate for Deep Diversity
- Climate for Psychological Safety
- Climate for Justice
- Climate for Innovation: Co-Workers
- Climate for Continual Learning
- Climate for Leadership
- Climate for Teamwork
- Climate for Demographic Diversity
- Climate for Customer Service

Climate for Innovation: Co-Workers

... refers to the extent to which co-workers encourage each other to share and come up with innovative solutions.

Sample question

- “Co-workers tell each other about other new information that can be used to increase job performance”

Climate for Continual Learning

... refers to the extent to which an organization has policies, practices, and procedures that emphasize continued employee education.

Sample question

- “There is excellent on-the-job training”

MINES for Libraries ® (critical incident)

- MINES is a transaction-based research methodology consisting of a web-based survey form and *a random moments sampling plan*
- MINES typically measures who is using electronic resources, where users are located at the time of use, and their **purpose of use** *in the least obtrusive way*
- MINES was adopted by the Association of Research Libraries (ARL) as part of the “New Measures” toolkit in May, 2003.

Library User Survey

UConn Library Electronic Services Web Survey

This survey is being conducted during a **two-hour** time period by the University of Connecticut to assess the usage of the Library's electronic services. **All responses are anonymous.** The data is critical for obtaining continued funding.

After completing the survey, you will be connected to the service you selected.
