Preparing for the Survey Implementation
Why is Your Library Participating in LibQUAL+®?

• Institutional goals:
  – what do you want to get out of the survey?

• Survey requirements:
  – people, supplies, technology
Get Permission from your Institutional Review Board

• Local group that approves human subject research

• May also be called
  – Committee for Human Subject Research
  – Committee for the Protection of Human Subjects

• Not all institutions need to obtain permission
Get Permission from your Institutional Review Board

• If permission is required:
  – Seek well in advance of survey
  – Supply a copy of the survey, if requested
  – Inform them that results will be shared among participants

• No need to inform LibQUAL+® of decision
Determine Whom to Survey

- Random sample
  or
- Entire population
If You Sample…

• Recommendations:
  – At least 1,200 random email addresses for each user group
  – Separate sample groups for undergraduates, graduates, faculty, and staff
  – Think about survey fatigue if you want to repeat the survey regularly

• Keep notes on your methodology as you will be asked to describe it in the Post Hoc Questionnaire
If You Survey the Entire Population...

• Recommendations:
  – Think about survey fatigue if you want to repeat the survey regularly

• Keep notes on your methodology as you will be asked to describe it in the Post Hoc Questionnaire
Obtain Email Addresses

• Typical sources include:
  – Campus computing office
  – Campus administrative records office
  – Library patron database

Marketing Your Survey

– Place ads in campus newspaper
– Write article for library newsletter
– Post flyers around campus
– Present at faculty meetings & student orientations
– Create a survey Web site and feature on library’s home page
– Take the survey to where users are: dining halls, study rooms, dorms
– More suggestions and example works are available on Publications Page

2012 Procedures Manual

We are delighted to offer you a platform that supports features like LibQUAL+® Lite and other enhancements. LibQUAL+® Lite is a new customizing feature that you will set during configurations, not at the time of registration.

Getting started:

• To view or add users to your institution’s account, visit the ‘Manage Users’ link of the Management Center (found in the navigation area on the left). Here you can manage access to this website by members of your staff.

• To view and set user permissions for your survey run, visit the ‘Manage Permissions’ link of the Management Center. Here you can set a user’s role in administrating your LibQUAL+® survey. Manage Permissions is only relevant when your institution is currently registered to run a LibQUAL+® survey.

Stage 1

Manage Your Survey:
Stage 1 - Customization

Always save your work

- Survey Title—Please choose a label to display at the top of your survey. This label should not be more than 60 characters long.

- Upload your Institution’s Logo—Your Institution’s logo will be displayed at the top of the survey. The image must be a JPEG, GIF, or PNG file; 800x200 pixels or smaller and its file size must be less than 200 KB.

- Support E-mail Address—Provide an e-mail address to appear on your survey as the first point of contact for survey-takers who have questions or concerns. We recommend that your institution set up a designated personal account just for these e-mails.

- Lite-view Percentage—There are two versions of this survey: the long version with 22 core questions and a Lite version with 8 core questions. Please enter the percentage of patrons who should receive the shortened Lite survey.

- Incentives—If you will be providing an incentive to one or more randomly-selected survey-takers, check the box at the right. If you choose this option, your survey-takers will then be asked for their e-mail addresses at the bottom of the survey. After you close your survey, you can access a list of 50 randomly-selected winners.

- Survey Start and End Dates—Please indicate the dates you intend to open and close the survey at your institution. Note that these dates are for our information only and are not binding. You must manually open and close your survey.

- Reporting Language—Please select one of your languages for use in your notebook and other reports.

Optional Questions

Use this tab to add extra questions to your survey, selected from a list provided below. This list contains only optional questions available in ALL the languages in which you are offering your survey. You can choose to add either five questions or none. If you do not want optional questions, leave the form blank. No other number of questions is allowed (thus, if you attempt to save with fewer than five questions selected, none of them will be saved). These five optional questions will be interspersed within the core questions on the survey.

To view a list of all optional questions for your selected languages click here.

- To add an optional question to your selected list: click the '+' icon adjacent to the question in the 'Available' list.
- To remove an optional question from your selected list: click the 'x' icon adjacent to the question.

Branch Library Options

In this tab you can specify the options from which users will choose their response to the question, "The library that you use most often." If you do not want to include this question on your survey (for example, if your institution has only one library), simply leave the area below empty.

If you enter options, the question will be included in the demographics section of the survey. Responses to this question will be returned to you as part of your survey data file, but will not be reported in your results notebook. The libraries added will appear in the order they are listed on this tab in the survey form.

- **To add a library option:** click the ‘Add New Option’ button.
- **To amend a library option:** click on the option’s text field and make changes.
- **To remove a library option:** click the ‘x’ icon adjacent to the option row. Note that if you do this by mistake, you will need to recreate the option by adding a new one.

Manage Your Survey:
Stage 1 - Disciplines

- Results notebooks summarize findings by user group and provide a chart for both standard and custom disciplines
  
- Standard disciplines (based on your institution type, i.e., College/University)

- Customized disciplines
  - Recommend no more than 16 disciplines, if possible
Manage Your Survey: Standard Disciplines

- Agriculture/Environmental Studies
- Architecture
- Business
- Communications/Journalism
- Education
- Engineering/Computer Science
- General Studies
- Health Sciences
- Humanities
- Law
- Military/Naval Science
- Other
- Performing & Fine Arts
- Science/Math
- Social Sciences/Psychology
- Undecided

*Note: Disciplines are for an Academic Library*
Manage Your Survey: Customized Disciplines

• Use your local terminology to map to the standard disciplines

• Cautions:
  – Need to provide representativeness data for each discipline
  – Too many choices present challenges to users
Manage Your Survey: 
Stage 1 - Customized Disciplines

Discipline Options

This tab enables you to select the discipline terms that you want to use in the demographics section of your LibQUAL+® survey. The standard discipline terms for each of your survey languages appear below by default. You may choose to use some or all of the LibQUAL+® standard discipline terms, or you may choose to create your own discipline categories. If you choose to add your own categories, they MUST be mapped to a LibQUAL+® standard discipline for data analysis purposes. (Please make sure your new term(s) relate to the standard disciplines; in other words, do not enter “Accounting” and map it to “Architecture.”) Your disciplines will appear in alphabetical order. Be careful to enter new terms exactly as you want them to appear on your survey! Make a note to check your discipline options for any spelling, grammatical, or formatting errors here as well as during the “preview” stage.

- **To amend a discipline option:** click on the option text field and make changes. You can also reassign the option to another standard discipline category if desired.
- **To remove a discipline option:** click the ‘x’ icon adjacent to the option row. Note that if you do this by mistake, you will need to recreate the option by adding a new one.
- **To add a discipline option:** click the ‘Add New Option’ button.

Position Options

This tab enables you to select the role terms that you want to use in the demographics section of your LibQUAL+® survey. The standard role terms for each of your survey languages appear below by default. You may choose to use some or all of the LibQUAL+® standard role terms, or you may choose to create your own role categories. If you choose to add your own categories, they MUST be mapped to a LibQUAL+® standard role for data analysis purposes. Your positions will appear in the order displayed here. You can also change the terms for the parent user groups. Be careful to enter new terms exactly as you want them to appear on your survey! Make a note to check your role options for any spelling, grammatical, or formatting errors here as well as during the "preview" stage.

- To amend a role option: click on the option text field and make changes. You can also reassign the option to another standard role category if desired.

Stage 4 – Incentive Winners

A list of randomly selected e-mail addresses is displayed below. These addresses were drawn from those individuals who took the survey at your institution and chose to enter their e-mail address. Use this list as you think best to distribute your local incentive prize(s). Our congratulations to your winners!

We recommend that you save a copy of this list if you think you will need to refer to it in the future. This page will be removed when next year's survey registration begins. Download the winner list in CSV format.
