ARL Supplementary Statistics 2006–2007

The quantitative tables presented in this publication are not indicative of performance and outcomes and should not be used as measures of library quality. In comparing any individual library to ARL medians or to other ARL members, one must be careful to make such comparisons within the context of differing institutional and local goals and characteristics.

The *ARL Supplementary Statistics* datafiles and accompanying documentation are available at www.arl.org/stats/annualsurveys/sup/index.shtml.

HIGHLIGHTS, 2006–2007

- 108 ARL libraries purchased 25,006,758 electronic books. In 2006–2007, there was an ARL median of 243,725 acquisitions of electronic books (this includes one institution that purchased 801,640 electronic books).
- ARL libraries reported spending a total of \$26,387,282 for electronic books in 2006–2007.
- A total of 787,625 virtual reference transactions were recorded by 99 ARL libraries.
- 73 ARL libraries reported 152,083,681 log-ins to institutional networked e-resources.
- 116,840 total digital collections were reported, containing 79,786,819 items, which were accessed 662,537,647 times.
- In 2006–2007, ARL institutions reported \$21,641,025 in the direct costs of digital collections personnel and \$9,230,896 in the costs of digital collections equipment.

Total Number of E-books held in ARL Libraries, 2004–2007

ARL SUPPLEMENTARY STATISTICS WORKSHEET, 2006–2007

Reporting Institution _____ Date Returned to ARL _____

Report Prepared by (name) _____

Title _____

E-mail address _____ Phone number _____

Contact person (if different) _____

Title _____

E-mail address _____ Phone number _____

Definitions of the statistical categories used in this questionnaire can be found in the COUNTER Code of Practice, April 2005 (http://www.projectcounter.org/code_practice.html) and in *Information Services and Use: Metrics & statistics for libraries and information providers--Data Dictionary*, NISO Z39.7-2004 (<http://www.niso.org/emetrics/current/index.html>).

Please read all instructions carefully before you answer the questionnaire. Make sure your responses are as complete and accurate as possible. Give estimates when you must, but please do not make wild guesses. Use footnotes to expand upon or clarify your responses.

All questions assume a *fiscal year ending June 30, 2007*. If your library's fiscal year is different, please use footnotes to explain.

If your library does not perform a given function or had no activity for this function or if the appropriate answer is zero or none, use **0**. If an exact figure is unavailable, check NA/UA.

Please do not use decimals. All figures should be rounded to the nearest whole number.

Deleted:

1. Number of electronic journals purchased.
2. Number of electronic "full-text" journals purchased.
3. Number of electronic journals not purchased.
4. Number of electronic reference sources.
7. Expenditures for current electronic journals purchased.
8. Expenditures for electronic "full-text" journals.
9. Expenditures for electronic reference sources.

Electronic Books

1. **Number of electronic books.** (1) _____

Number of electronic full-text monographs that the library offers to its users and for which the library pays some fee for access either through an individual institutional licensing contract with the provider of journals or through other arrangements (e.g., library-funded consortia, centrally-funded consortia or through state or national purchasing plans).

This includes electronic books purchased through vendors, such as netLibrary and Books24x7, and electronic books that come as part of aggregate services. Include individual volumes of e-book sets that are treated as individual reference sources. Exclude locally digitized electronic books, electronic theses and dissertations, locally created digital archival collections, and other special collections. Do not include machine-readable books distributed on CD-ROM, or accompanied by print books.

2. **Expenditures for electronic books.** (2) _____

Include annual access and service fees paid directly or through consortia arrangements. Include initial purchase cost only for items purchased this fiscal year. Expenditures here are only for the electronic books reported in #1.

3. **Are the above expenditures reported in Canadian dollars?** (3) _____Yes _____No

Use of Networked Electronic Resources and Services

4. **Number of virtual reference transactions.** (4) _____

Virtual reference transactions are conducted via email, a library's website, or other network communications mechanisms designed to support electronic reference. A virtual reference transaction *must* include a question *either* received electronically (e.g., via e-mail, WWW form, etc.) *or* responded to electronically. A transactions that is both received and responded to electronically is counted as *one* transaction. Exclude phone and fax traffic unless either the question or answer transaction occurs via the manner described above. Include counts accrued from participation in any local and national projects, such as DigiRef and the Library of Congress's CDRS (Collaborative Digital Reference Service).

A reference transaction is an information contact, which involves the knowledge, use, recommendations, interpretation, or instruction in the use of one or more information sources by any member of the library staff (e.g., circulation, technical or reference services).

5. **Does your library offer federated searching across networked electronic resources?** (5) _____Yes _____No

Networked electronic resources may include any information resource, such as databases, journals, e-books, reference materials, and non-textual resources that are provided to the library's users through licensing and contractual agreements. Include electronic resources that institutions mount locally.

6. **Number of sessions (logins) to databases or services.** (6) _____

6.a. **Number of resources for which you are reporting.** (6.a) _____

A session or login is one cycle of user activities that typically starts when a user connects to an electronic resource and ends with explicit termination of activities (by leaving through logout or exit) or implicit termination (time out due to user inactivity). Report here those figures that you derive from Database Report 1 and Database Report 3 in the COUNTER Code of Practice. In a footnote, please include the types of resources reported in 6a.

7. **Number of searches (queries) in databases or services.** (7) _____

7.a. **Number of resources for which you are reporting.** (7.a) _____

A search is intended to represent a unique intellectual inquiry. Typically, a search is recorded each time a search request is sent/submitted to the server. Report here those figures that you derive from Database Report 1 and Database Report 3 in the COUNTER Code of Practice. In a footnote, please include the types of resources reported in 7a.

8. **Number of successful full-text article requests.** (8) _____

8.a. **Number of resources for which you are reporting.** (8.a) _____

Items reported should include only full-text articles as defined in the COUNTER Code of Practice. Report here those figures that you derive from Journal Report 1 in the COUNTER Code of Practice. In a footnote, please include the types of resources reported in 8a.

9. **Number of virtual visits.**

9.a. **Number of virtual visits to library's website.** (9.a) _____

9.b. **Number of virtual visits to library's catalog.** (9.b) _____

9.c. **Excludes virtual visits from inside the library?** (9.c) ___Yes ___No

Virtual visits include a user's request of the library web site or catalog from outside the library building excluding the number of pages or gratuitous elements (images, style sheets) viewed. Exclude, if possible, virtual visits from within the library, from robot or spider crawls and from page reloads.

A visit is usually determined by a user's IP address, which can be misleading due to Internet Service Providers (ISPs) and Firewalls or Proxy Servers. Thus, this measure is actually an estimate of the visits.

Library Digitization Activities

10. **Number and Size of Library Digital Collections.**

10.a. **Number of Collections.** (10.a) _____

10.b. **Size (in megabytes).** (10.b) _____

10.c. **Items.** (10.c) _____

Library digital collections can include born digital materials or those created in or converted from different formats (e.g., paper, microfilm, tapes, etc.) by the library and made available to users electronically. This includes locally held digital materials that are not purchased or acquired through other arrangements (e.g., vendor, individual or consortia licensing agreements). Born digital collections can include materials self-archived in an institutional repository. Created or converted digital collections can include electronic theses and dissertations (ETDs); special collections materials; maps; sound recordings; and, films.

For each type of collection (e.g., text, image, multimedia), include the size (in megabytes) and, if possible, the number of items (e.g. unique files) in each collection. Exclude back up copies or mirror sites since items should be counted only once. Exclude e-reserves and ETDs provided by ProQuest or other vendors. In the footnote, provide

a paragraph describing the general nature of library digital collections and, if possible, provide the URL where collections are listed.

11. Use of Library Digital Collections.

11.a. Number of times items accessed. (11.a) _____

11.b. Number of queries conducted. (11.b) _____

Number of times library digital collection items (unique files) were accessed and the number of searches (queries) conducted (if there is such a capability) during the reporting period. Please explain in a footnote how library digital collections are accessed, and if possible, list the URLs of those collections.

12. Direct cost of digital collections construction and management.

12.a. Direct cost of personnel (12.a) _____

12.b. Direct cost of equipment, software or contracted services. (12.b) _____

Annual direct costs (personnel, equipment, software, contracted services and similar items) spent to create digital materials (texts, images, and multimedia) or to convert existing materials into digital form for the purpose of making them electronically available to users. Include expenditures related to digitization, OCR, editorial, creation of markup texts, and preparation of metadata for access to digitized materials, data storage, and copyright clearance. Exclude expenditures for information resources purchased or acquired from outside the institution through individual or consortia licensing agreements. In the footnote, please describe any additional funding (university, state, private grants, etc.) provided specifically for the library's digitization activities.

13. Volumes Held Collectively (13) _____

The defining criterion is that the library has devoted financial resources for the purchase of these items and is taking responsibility for their availability through participation in a cooperative that supports shared ownership. The library demonstrates commitment to the shared storage facility by supporting the consortium financially through a legally binding arrangement. Include here volumes originally held and now withdrawn from the local collection because they are held in a "shared" remote storage facility starting with volumes that have been transferred during fiscal year 2003-2004. Include volumes purchased collectively where the cost is shared at the time of purchase. Exclude volumes held collectively because they are held by other organizations such as the Center of Research Libraries (CRL) that are supported by membership dues and determination on whether to maintain membership may vary from year to year.

Footnotes:

Submit the completed questionnaire by **January 30, 2008.**

For assistance, please call the ARL Office at (202) 296-2296,
or e-mail Martha Kyrillidou (martha@arl.org) or Mark Young (stats-ra@arl.org).

FOOTNOTES TO THE ARL SUPPLEMENTARY STATISTICS, 2006–2007

Footnotes may also include errata and corrections to data from prior years not previously reported. Unless otherwise noted all data is of 06/30/2007.

QUESTION
NUMBER

FOOTNOTE

ALABAMA

All figures are as of 09/30/2007.

ALBERTA

All figures are as of 03/31/2007.

Library branches included: Law Library, Health Sciences Library.

- 4 Includes directional and reference - based on a three-week sampling extrapolated to a year.
- 6 Based on statistics from Scholarly Stats.
- 6a Figure is for Databases only.
- 7 Based on statistics from Scholarly Stats.
- 7a Figure is for Databases only.
- 8–9a We do not currently use a mechanism that would easily determine this count.
- 10a Includes Peel, Folklore, Royal Commissions, Ouward, and Salzburg collections.
- 10c Items are for number of pages.
- 11a Accesses are for one collection only (Peel Library). Did not have access to the other collection web logs.
- 11b Queries are for one collection only (Peel Library). Did not have access to the other collection web logs.
- 12 Comprised of: 50% Digital Initiatives Librarian salary, 50% Metadata Librarian Salary, 100% Peel Bibliographer salary, 60% Peel Copyright Officer salary.

AUBURN

All figures are as of 09/30/2007.

Library branches included: Library of Architecture, Design and Construction, Cary Veterinary Medical Library.

- 8 This marks a decline from data reported in this category for 2005-06. We identified two reasons for this decline: 1) The 2005–2006 data, counted more carefully according to the definition, should have been 2,499,121. 2) Several EBSCO databases received remarkably heavy use in 2005–2006, but little use during 2006–2007.
- 10b Our report last year mistakenly entered 28,000--this was 28,000 megabytes, or 27 gigabytes. 2006–2007 we have 70,000 megabytes, or 68 gigabytes. New content added includes high resolution Veterinary Medicine slides, Architecture slides, and aerial photographs.
- 11a The Libraries' online catalog lists "Digital Collections" as a link. The URL is <http://diglib.auburn.edu>. The large increase in the use of the digital collection is partly the result of moving these collections to CONTENTdm during the past year.

BOSTON

- 1 Mugar is excluded, figure is for Theology Library.
- 5–8 Library's E-resource providers are not project counter compliant.
- 10a Theology Library only.

BOSTON COLLEGE

Library branches included: John J Burns Library of Rare Books and Special Collections, Bapst Library, School of Social Work Library, Educational Resource Center. Library branches not included: Law School Library.

In 2006–2007, the definitions were changed to include e-books owned or leased and cataloged for the volume count, and Supplementary question number (1) wants the subset that represents e-books. So now we are only counting cataloged e-books in both places. It doesn't relate to what we spend, and it represents only total e-books held and cataloged, not necessarily what is purchased that year. Not all our e-book collections have MARC records available or loaded yet, so the numbers do not correspond.

- 1 It looks as if there are fewer e-books in 2006–2007 but it's really because there were two different places and ways to count e-books in 2006–2007 — a number included in the volume count for purchased and cataloged e-books (that number was 246,897) and a separate statistic in the Supplementary Statistics for all e-books we provided access to and paid for (whether cataloged or not).

**QUESTION
NUMBER** **FOOTNOTE**

BOSTON COLLEGE CONT.

- 10b 2005–2006's number was reported in megabytes. It should have been reported as 32,000 gigabytes.
- 12b We spent an additional \$34,000 for our yearly license for our institutional repository but those funds came from the Information Technology Services budget and not the library budget.

BRIGHAM YOUNG

All figures are as of 12/31/2006.

- 2 Though there is a separate account for e-book expenditures that reported \$8,250 for 2006, this was not inclusive of other expenditures embedded in other accounts (firm order monographs & others) where e-books may have been purchased but not specifically tracked. Therefore, rather than report the smaller figure, it was determined to report NA.
- 8 Both figures for (8) are a best estimate with the limited info available through our online utilities.
- 10c This figure is based on 2006–2007 statistics assuming a straight-line increase from the figure reported in 2005–2006.
- 11b Individual queries are not tracked.

BRITISH COLUMBIA

All figures are as of 03/31/2007.

Federated searching software was started after March 31, 2007.

- 2 Includes initial purchase cost only (One-time funding).
- 4 UBC Library joined consortium Askaway to provide virtual reference service; fewer hours committed than in UBC-only pilot project for virtual reference service.
- 9a Decrease: 2005–2006 figure was an estimate only.
- 10c See <http://angel.library.ubc.ca/index.php> for a list/description of the collections.
- 12a This figure is estimated.

BROWN

Library branches included: Includes: Rockefeller Library, Sciences Library, John Hay Library, Orwig Music Library, Art Slide Library, and Library Collections Annex.

Does not include: John Carter Brown Library.

Medical library statistics cannot be disaggregated from the main because the medical collection is an integral part of the Sciences Library.

- 8a Includes: JSTOR, Project Muse, ScienceDirect, Springer, Cambridge UP, Wiley, AcademicSearch Premier, BusinessSource Premier, SocIndex with full-text, EBSCO Host.

CALIFORNIA, DAVIS

- 4 This includes the Law Library.
- 5 Excludes the Law Library.

CALIFORNIA, IRVINE

- 2 Includes both UCI and California Digital Library Expenditures.
- 10a Anteater Chronicles: The UCI Story: <http://www.lib.uci.edu/ucihistory/index.php?page=index>. This website chronicles the history of the University of California Irvine campus—its history, place, and people. This website was created as part of the UCI Historical Records Project in celebration of the campus's Fortieth Anniversary in 2005. Quest for Peace: <http://www.lib.uci.edu/quest/index.php>. This is a comprehensive collection of interviews conducted between 1983 and 1989 with some of the most informed, influential, and thoughtful people from the United States, the then Soviet Union, and other countries around the world. The interviews were created and conducted by Professor John M. Whiteley, Professor of Social Ecology, University of California, Irvine in collaboration with the University of California Irvine's Libraries, the Teaching, Learning and Technology Center and Network and Academic Computing Services. New U Project: The UCI Libraries is digitizing some of the backfiles of the UCI campus newspaper, the New University in order to make this freely available over the internet. SEAAdoc: <http://seaadoc.lib.uci.edu/index.html>. SEAAdoc is an educational resource of the Southeast Asian Archive at the UC Irvine Libraries focusing on post-1975 refugees and immigrants from Cambodia, Laos, and Vietnam and the communities they have developed in the United States. It contains 1,500 visual images and 4,000 pages of searchable text selected from the Archive to represent a cross section of our holdings. SEAAdoc documents the exodus of Southeast Asian refugees and immigrants from their homelands, their experiences in Asian refugee camps, and subsequent resettlement in the United States. Other materials reveal cultural, economic, educational, political, and social aspects of the new Southeast Asian American communities that have developed, and continue to grow, in the United States.

**QUESTION
NUMBER** **FOOTNOTE**

CALIFORNIA, LOS ANGELES

- 6a, 7a This number represents UCLA-licensed databases for which COUNTER-compliant statistics are available. The UCLA Library licensed approximately 120 databases 2006–2007.
- 8a Figure represents 51 Journal Packages.

CALIFORNIA, RIVERSIDE

Library branches included: Science Library, Media Library, Music Library, Palm Desert Graduate Center.

Increase in expenditures in question (2) for electronic books reflect shared collections and co-investments across the UC Library system. The dramatic increases in statistics for questions (6), (7) and (9) reflect enhancements in our ability to track use of electronic resources. The significant increases and decreases in questions (12a) and (12b) reflect changes in availability of grant funds to support research projects.

CALIFORNIA, SAN DIEGO

Library branches included: All UCSD Libraries are included in the Supplementary Statistics: The Arts Libraries, the Biomedical Library, the Center for Library & Computing Services, the International Relations & Pacific Studies Library, the Mandeville Special Collections Library, the Medical Center Library, the Science & Engineering Library, the Scripps Institution of Oceanography Library, the Social Sciences and Humanities Library.

- 1 All answers on the Supplementary 2006–2007 Survey are for both the Geisel Libraries (the main library) and the Health Sciences Libraries. We do not separate them for this survey. This figure includes 358,572 monographs catalogued by SCP (shared digital collections and CDL-hosted shared services).
- 2 Includes \$1,421,343 annual access and service fees paid directly or through consortial arrangements by CDL for electronic books reported in question (1).
- 8a Represents journal packages (last year they were counted separately, not the number of packages).
- 9a Represents 57,823,670 visits to UCSD Libraries website plus CDL reports approximately 3,406,890 to Calisphere/OAC, Counting California, CDL Home, eScholarship Editions.
- 10a Digitized collections comprise mainly images. However, digitized collections also include text (.pdf, .xml), audio, and video. They can be found at: <http://repositories.cdlib.org/siol/>; <http://www.artstor.org/>; <http://www.oac.cdlib.org/institutions/ark:/13030/tf5j49p47v>; <http://www.scrippsarchives.ucsd.edu/sio/archives/collections/still.html>; <https://libraries.ucsd.edu/dams> (limited staff access only).
- 13 Corrections to this figure for previous reports: 2003–2004 (17,540); 2004–2005 (23,027); 2005–2006 (14,134); 2006–2007 (26,126).

CASE WESTERN RESERVE

Library branches included: Harris Library in the Mandel School of Applied Social Sciences, Cleveland Health Sciences Library, and the Law Library.

- 6a Types of resources include: EBSCO Host, ProQuest Databases, IEEE Online, Beilstein Crossfire, Compendex, Inspec, SciFinder Scholar, Gale Associations Unlimited, Expanded Academic ASAP, Groove Music Database, 18th Century Collections Online, MLA Index.
- 7a Types of resources include: JSTOR, ACM Digital Library, ACS Publications, SciFinder Scholar, IEEE Online, EBSCO Host Databases, ProQuest Databases, Oxford Reference Online.
- 8a Types of resources include: JSTOR, ProQuest full text journals, EBSCO Host full text journals, American Periodical Series Online, Project Muse, ATLA Religion Database with ATLA Serials, Science Online, IEEE Online.

CHICAGO

- 6a, 7a Types of resources included: aggregators, publisher-based products, indexing/abstracting resources, reference works, monograph collections.
- 8 To avoid double counting, statistics for resources that are primarily full-text do not include data for abstracts viewed, etc., since these are mainly a conduit to full-text access.
- 8a Types of resources included: aggregators, publisher-based products, indexing/abstracting resources, reference works, monograph collections.
- 9a This is a count of “hits,” not sessions.
- 9b Our system does not record “visits” or “sessions.” This number represents individual search requests.
- 10c This includes all master files and derivatives since each is a different item available to the public.
- 11a–11b This figure does not count all of the uses and queries made on our digital objects, but only those for which we have identifiable data.

**QUESTION
NUMBER** **FOOTNOTE**

CINCINNATI

Library branches not included: Raymond Walters and Clermont College, except as noted.

- 9b As we have a shared catalog across the university, this number represents accesses campus-wide, therefore from main, law, and health sciences and also accesses from our two two-year colleges, Raymond Walter College and Clermont College.
- 11a–11b We are unable to capture these numbers at this time.

CANADA INSTITUTE OF SCIENTIFIC AND TECHNICAL INFORMATION

All figures are as of 03/31/2007.

COLORADO

Library branches not included: the Law Library.

- 1 A large part of this increase (119,101) was due to batch loaded e-books in 2006–2007.
- 6a, 7a, 8a This number includes 97 databases and an additional 4,084 journal titles, totalling 4,181 resources.
- 9c Excludes virtual visits from inside the library for Web sites but not for the library’s catalog.
- 12b We received an additional \$39,414 in additional funding from gifts and grants.
- 13 This number is zero because we have not withdrawn any of the items we have sent to off-site storage.

COLORADO STATE

- 1 2005–2006 response was interpreted to mean number of electronic books added to the collection. 2006–2007 question states “number of electronic books held.”
- 10b Figure reflects a change in the definition of digital collection for tracking purposes. Also, 2005–2006 figure was reported in megabytes, 2006–2007 reported in gigabytes.
- 11b Change in software used for web statistics tracking. Currently using Google Analytics which is JavaScript-based tracking, which automatically excludes robots/crawlers and users with JavaScript or cookies turned off; whereas WebTrends required manually maintaining a list of crawlers, which is time consuming, error-prone and infrequently done.
- 12a During 2006–2007 two funding sources became available for the Digital Collections component. During the Library reorganization, Digital Repository is now recognized as a library department with a current staff of 3 FTE and students. Second, flood recovery funds were directed towards the hiring of a temporary Photo Archivist and temporary University Archivist.
- 12b Savings from prior funding savings was earmarked for the purchase of software and other repository needs.

COLUMBIA

Digital Collection = Barnard Bulletin, the College’s student newspaper, 1901-2002 consisting of approximately 25,500 pages. It is available at barnardcollege.newspaperarchive.com (Barnard Library).

- 4 This is an estimate (Law Library).
- 6–8 Usage statistics include only those databases that are COUNTER compliant (Teachers College Library).
- 9b Includes e-mail reference transactions for first time in 2006–2007 (22,815 transactions) for Butler Library.

CONNECTICUT

Library branches included: The Main Survey includes the Homer Babbidge Library, the Music & Dramatic Arts Library, the Thomas J Dodd Research Center and the Pharmacy Library on the Storrs campus. It also includes the regional campus libraries located at Avery Point, Stamford (Jeremy Richards Library), Torrington (Julia Brooker Thompson Library), Waterbury, and Hartford (Harleigh B Trecker Library).

Library branches not included: does not include the Law Library or the Health Sciences Library.

- 6 The number of sessions (logins) to databases or services from 2005–2006 should be reduced to 738,690.
- 6a The number of resources reported for 2005–2006 should be reduced to 156.
- 7 The number of searches (queries) in databases or services from 2005–2006 should be reduced to 2,768,080.
- 7a The number of resources for which you are reporting for 2005–2006 should be reduced to 186.
- 8 The number of successful full-text article requests from 2005–2006 should be reduced to 1,615,630.
- 8a The number of resources for which you are reporting for 2005–2006 should be reduced to 32,689.
- 10a UConn Libraries Digital Collections during 2006–2007 consisted of 14 collections including archival materials, botanical specimens, historical maps and documents, literary documents, special reports, and photographs. See <http://digitalcollections.uconn.edu> and <http://magic.lib.uconn.edu>.

QUESTION **FOOTNOTE**
NUMBER

CONNECTICUT CONT.

11a, 11b Web server statistics were not maintained to a level adequate to report effectively for these purposes.

DARTMOUTH

8 This count represents only the 6,665 titles gathered in Scholarly Stats; the titles are in the following resources: American Chemical Society, Blackwell Synergy, Cambridge Journals Online, Elsevier ScienceDirect, HighWire Press, IngentaConnect, MetaPress, Oxford Journals Online and Wiley InterScience.

DELAWARE

10b Size of Library Digital Collections reported in megabytes for 2005–2006.

DUKE

1 Increase due to a one-time down load of e-book MARC records into the catalog of 120,255 monographic titles.

2 Large increase in monographic expenditures is the result of extensive additional funding for 2008-12 from the University Strategic Investment Plan (SIP) for acquiring electronic journal back files and retrospective electronic collections.

10a Increase due to increased digitization activity by the Digital Production Center. Information about the specific digital collections is available here: <http://library.duke.edu/digitalcollections/az-list.html>.

EMORY

All figures are as of 08/31/2007.

FLORIDA STATE

Library branches included: Robert Manning Strozier (Main) Library, Engineering Reading Room, Paul A.M. Dirac Science Library, College of Law Library, College of Medicine Maguire Library, College of Information Goldstein Library, Warren D. Allen Music Library, Claude Pepper Library, Panama City, FL Library, Panama City, Panama Library, John and Mable Ringling Museum of Art Library.

9a Only Main, Goldstein College of Information and Maguire Medical Libraries reported this number. All others are excluded.

10b The drop in this number is due to the count being in gigabytes for 2006-2007 and in megabytes for 2005–2006.

10c The large increase in digital items is due to the inclusion of the Claude Pepper Library's special collection.

11a The College of Law Library reported over 4 million accessions during 2005-2006. Their numbers are not available for 2006–2007. The only library reporting this number is Strozier. This number is the same as (11b) because the counting mechanism counts searches as materials retrieved.

11b This number is the same as (11a) because the counting mechanism counts searches as materials retrieved.

13 College of Medicine Library only. All others did not report this number.

GEORGE WASHINGTON

1 Figure lower than 2005–2006 as new e-book definition required removal of all open-access e-books (e.g. PubMed Central) as well as a handful of Gelman-subscribed books (Himmelfarb Health Sciences Library). 32,781 reflects 233 e-books added 2006–2007. The rest are e-books we now "own" because of leasing and Ebrary, but are not included in Volumes Held June 30, 2007 numbers (Gelman Library).

8a Refers to journals in 4 publisher databases.

GEORGETOWN

Supplementary Statistics include Main Library, Bioethics library, and the Woodstock Theological Library.

Library branches not included: Qatar branch is not included.

7a, 8a N/A reported for 2005-2006 (Law Library).

10a Bioethics doubled number of collections from 5 to 10.

10c Increase is due to the huge increase in ETD (Electronic Theses and Dissertations) submitted since Master's became mandatory since the last reporting as well as the Bioethics Library's digitization activities undertaken to develop full text in support of delivering:

11a 1) the Bioethics Syllabus Exchange collection at: <http://bioethics.georgetown.edu/databases/Syllabus/index.htm>; 2) the Digital Archive for the Collection of Human Subjects at: <http://bioethics.georgetown.edu/nrc/collections/ohrp.htm>; and

12a 3) additional dig resources added to the Digital Collection Project on genetics and ethics at: <http://bioethics.georgetown.edu/nirehg/nirehgdigcol.htm>.

QUESTION NUMBER **FOOTNOTE**

GEORGETOWN CONT.

- 12b Increase is actually 29.34% — an incorrect number was reported for 2005–2006 (1,178 reported — should have been 7,678). Discovery and access to Digital Archive collections are made available through library’s local OPAC and through OCLC Worldcat and FirstSearch systems. A unique OCLC Digital Archive URL is assigned to each object in the library’s Digital Archive. The URL is added to local records as well as OCLC bibliographic records, providing access to archived objects (Law Library).

GEORGIA

- 2 Only Law reported number. Main Library reported that Source OECD and Ingenta both are part of larger serial database.
- 10a Digital Library of Georgia collections are found at <http://dlg.galileo.usg.edu>. Russell Department reports Podcasts of dept. sponsored programs and online exhibits of department exhibits viewed at: www.libs.uga.edu/russell/exhibits.shtml.

GUELPH

All figures are as of 04/30/2007.

Data for this survey reflects the holdings and operations of the McLaughlin Library, Ontario Veterinary College Learning Commons, and the TriUniversity Storage Annex (Guelph materials only).

- 6–7 Marked increase over value for 2006–2007’s signals, in part, growing importance of the ScholarsPortal, a shared repository for journals and databases operated by the University of Toronto for Ontario universities. All the databases considered are mounted there.
- 8a All of these journals are housed at the ScholarsPortal, a repository operated by the University of Toronto for other Ontario universities.

HAWAII

Library branches included: Hamilton Library, Sinclair Library.

Library branches not included: Health Sciences Library, School of Law Library.

- 9a This is an estimate based on six months of data.

HOUSTON

All figures are as of 08/31/2007.

- 2 Ebrary subscription of 15 months was paid in last 2005–2006, so expenditure does not appear in 2006–2007’s figures.
- 9a This number is an approximation. A server problem required that we do some calculations to come up with this figure.
- 10b Actual figure is .030. The library is only putting up thumbnail images, not full-size images.

HOWARD

Library branches not included: Health sciences library; Law library.

- 9a Monthly statistics generated for main Library using WeblogExpert.

ILLINOIS, CHICAGO

Library branches included: Richard J. Daley Library, Science Library.

Library branches not included: Library of the Health Sciences at: Chicago, Peoria, Rockford, and Urbana.

- 1–8a Includes data for health sciences branches.
- 9a, 10a Number of collections does not parse out the Indigo collections by user, discipline, or any other subdivision. Similarly, it does not parse out the University Archive of 21st Century-born digital images into smaller units. The online exhibits listed are each counted as a separate collection. The Comer Archive is counted twice because of the overlap in availability of the images mounted on Luna and the images mounted on a UIC Library server.
- 10b–10c Size of collections includes only materials that are accessible by library users and/or the public. The Comer Archives includes an additional 12720.02 GB of material not yet accessible.

ILLINOIS, URBANA

- 2 Increase due to purchase of Springer E-Book package.
- 10a This is the number of collections (loosely defined) of content digitized from local print and special collections holdings; does not include collections of licensed and commercially purchased digitized content, nor digital collections maintained in our institutional digitized repository, nor digital archival finding aids.
- 10c Cumulative count of items in all 14 locally digitized collections included in answer to (10a). Due to granularity differences between different classes of digitized resources, “item” is not a particularly useful metric. The value we submit here counts an individual digitized volumes consisting of 500 page images as a single “item,” but also counts a single digitized photograph as a single “item.”

**QUESTION
NUMBER** **FOOTNOTE**

ILLINOIS, URBANA CONT.

- 11a Based on analysis of available transaction logs. Includes 53,816 downloads in 2006–2007 from Internet Archive - Open Content Alliance (OCA) servers of University of Illinois at Urbana-Champaign owned books digitized in collaboration with OCA. Not all access systems and methods of access used for our digital resources include transaction log data at a granularity to provide input for this question, so the reported value is believed significantly less than actual value.
- 12a Includes permanent, temporary, and hourly staff involved in digitization and delivery of digital content. Best estimate made to isolate from costs associated with IT infrastructure and with handling and making available licensed and commercially purchased content; however, since our objective of our library is to integrate access to digital content useful to patrons regardless of source, this is impossible to do accurately. Portions (>\$250,000) of these costs borne by state and campus grants for digitization, development of delivery systems for digitized content held locally and elsewhere in Illinois and in the region. Not shown here is funding for staff involved in digital library research grant, though findings and software from those projects informed and has been adapted in our production environment.
- 12b Includes outsourced digitization of locally held print content. Portions (>\$250,000) of these costs borne by state and campus grants for digitization, development of delivery systems for digitized content held locally and elsewhere in Illinois and in the region.

INDIANA

Library branches included: The Law Library at Bloomington, the Archives of Traditional Music, and the Kinsey Institute. The Archives of African-American Music & Culture, Center for Disability Information & Referral, Gay Lesbian Bi-Sexual and Transgendered Student Support Services Office, and Workshop on Political Theory & Policy Analysis libraries are included.

The regional campuses at Columbus, Ft. Wayne, Gary, Indianapolis, IUPUI (including the Ruth Lilly Medical Library), Kokomo, New Albany, Richmond, and South Bend are excluded.

IOWA

- 4 This is an estimate (Law Library).
- 7 These searches are only for Westlaw and Lexis databases (Law Library).
- 7a Searches only for Westlaw and Lexis, we have many other databases that we do not get a count (Law Library).

IOWA STATE

Library branches included: Statistical data from the Main Library and Veterinary Medical Library, plus three reading rooms (Design, Physical Sciences, and Math) are included in the Main Library figures.

- 10b Size of Library Digital Collections changed from 108,128 in 2005–2006 to 414 in 2006–2007 because previous figure was in megabytes and current figure is in gigabytes (both as instructed).
- 11a Use of Library Digital Collections - number of times items accessed. This figure is no longer available because Fretwell-Downing's Z-portal software is no longer in use, so this information is not available.
- 12a The figure decreased \$61,773, from \$126,812 in 2005–2006 to \$65,039 in 2006–2007, because the Head of Digital Services was promoted to Associate Dean for Collections and Technical Services, and her work with digital services dropped to 5% in 2006–2007. The Head of Digital Services position was discontinued.
- 12b Direct cost of digital collections: direct cost of equipment, software or contracted services. The figure increased \$174,982, from \$10,932 in 2005–2006 to \$185,914 in 2006–2007, primarily due to the purchase of the Ex Libris software package, including: Primo, Verde, and MetaLib.

KANSAS

- 2 Prior year restatement from \$4,816 to \$23,065 to be consistent with new methodology applied in arriving at 2006–2007 total.
- 6 COUNTER only data provided for 2006–2007. Since 2005–2006 data included non-counter data the increase in use is not as apparent. For comparison the non-counter use is also provided in this footnote.
- 6a NON-COUNTER session not included in 6 amounts to 235,376 from 48 resources. Type of resources: Aggregate databases (ABI/Informs, Academic One-file, Wilson Omni-file, etc.), indexes and bibliographic databases (Art Index, MathSciNet, PsychInfo, Social Work Abstracts, Web of Science, etc.), and journal packages (Blackwell, Wiley, Elsevier, Springer).
- 7a NON-COUNTER searches not included in 7 amounts 725,877 from 48 resources. Type of resources: Aggregate databases (ABI/Informs, Academic One-file, Wilson Omni-file, etc.), indexes and bibliographic databases (Art Index, MathSciNet, PsychInfo, Social Work Abstracts, Web of Science, etc.), and journal packages (Blackwell, Wiley, Elsevier, Springer).
- 8 COUNTER only data provided for 2006–2007. Since 2005–2006 data included non-counter data the increase in use is not as apparent. For comparison the non-counter use is also provided in this footnote: 8 – 8a: NON-COUNTER items request not included in 8 amounts to 801,109 from 19 resources.
- 8a NON-COUNTER items request not included in 8 amounts to 801,109 from 19 resources. Type of resources: Aggregate databases (ABI/Informs, Academic One-file, Wilson Omni-file, etc.), indexes and bibliographic databases (Art Index, MathSciNet, PsychInfo, Social Work Abstracts, Web of Science, etc.), and journal packages (Blackwell, Wiley, Elsevier, Springer, etc).
- 12b Less hardware purchases in 2006–2007. Also, ENCompass system replaced by open source software, so no maintenance costs incurred.

QUESTION NUMBER	FOOTNOTE
LAVAL	
4	Includes those performed by phone and by mail.
6, 7	In 2005–2006 we were counting Webspurs. We don't use this service anymore since it was not counter compatible and was "blowing up" our figures.
8a	Fulltext databases are counted as one resource thus Ebsco = 14 databases and 133,653 full text downloads.
9a	173,422 = Visits = series of occurrences in our site by a specific visitor during a specific period. These visitors got access to 869,614 pages (excluding images, javascripts, and other files generally integrated. In 2005–2006 we mistakenly submitted the number of pages accessed.
9b	807,153 visits from everywhere; minus 43,331 from within the Library equals 763,822. 807,153 Visits = series of occurrences in our site by a specific visitor during a specific period. These visitors got access to 17,189,551 pages (excluding images, javascripts, and other files generally integrated).
10b	OurRoots: 377G; ETD project: 359 G; Erudit Laval 106G. We are also hosting geographical data 627G. As these were not produced by the Library, they are not counted here.
11a	Our ETD Web Site = 1,574,476 visits 4,570,360 page views. Many of our collections, developed in collaboration, are hosted elsewhere and thus not counted here. Our Roots (www.ourroots.ca) is hosted at University of Calgary. Erudit (www.erudit.org) is hosted at Université de Montréal. Last year we provided an estimate of these visits and these were number of pages viewed.

LIBRARY & ARCHIVES CANADA

All figures are as of 03/31/2007.

6, 7a	These are for Amicus only.
9b	Not available for 2006–2007.
10b	13,990,754 GB cartographic materials; 137,308 MB textual records.
10c	11 items arts and photos, 129 textual records.
12a–12b	This is not available.

LIBRARY OF CONGRESS

All figures are as of 10/01/2007.

9a	Correct figure is: 4,731,011,469 virtual visits. Web form responds with error message when trying to save this figure.
----	--

LOUISIANA STATE

6a, 7a, 8a	A different method of counting was used for 2006–2007.
9a	Moved the digital library to a consortium server.
9c	Visits to web site excludes inside the library; visits to library's catalog does not exclude visits made from inside library.

MANITOBA

All figures are as of 03/31/2007.

Libraries Included: William R. Newman Agriculture Library, Architecture/Fine Arts Library, Archives & Special Collections, Elizabeth Dafoe Library, Fr. Harold Drake Library, St. John's College Library, Donald W. Craik Engineering Library, E.K. Williams Law Library, Albert D. Cohen Management Library, Eckhardt-Gramatte Music Library, Sciences and Technology Library, Neil John Maclean Health Sciences Library, Bill Larson Library, Carolyn Sifton-Helene Fuld Library, Concordia Hospital Library, J.W. Crane Memorial Library, Misericordia Health Centre Library, Riverview Health Centre Vitural Library, J.W. Crane Memorial Library, Seven Oaks General Hospital Library, and the Victoria General Hospital Library.

MARYLAND

8	Reporting full-text from aggregators only.
10c	These are for counting unique items only.
11b	Total queries through library web page only.

MASSACHUSETTS

Library branches included: DuBois (Main Library) & ISEL (Integrated Sciences and Engineering Library).

9a	Includes all "visitors," including crawlers, web bots, etc.
9b	Visits from within the libraries are included in the reported counts. However, their number is artificially low because workstations in the Learning Commons are open to users without individuals logging in. As a result, there is no defining event that separates one users "visit" from the next.

**QUESTION
NUMBER**

FOOTNOTE

MCGILL

All figures are as of 04/30/2007.

1 This excludes e-theses.

MCMASTER

Library branches included: Mills Memorial Library, H.G. Thode Library, Innis Library, Health Sciences Library.

MIAMI

Library branches included: The University of Miami Libraries include the Richter Library (central library), Calder Memorial Library (medical library), Law Library, the Architecture, Business, Marine, and Music Libraries, and off-site storage facility.

4 Includes e-mail transactions in central and medical libraries; law and marine library data are not available. Chat and IM reference services were not offered in 2006–2007.

6 Number of sessions reported for 2006 should be 214,081, not 820,735 as reported. Central library reporting 198,569 sessions in 2006–2007 for the following 17 resources: ABC-CLIO, AP Photo Archive, American Mathematical Association, ARTstor, BioOne, EbscoHost, Elsevier Science Direct, Engineering Information - Engineering Village 2, Thomson ISI Web of Knowledge, Project Muse/JHUP, OCLC Firstsearch, Ovid, Oxford University Press (OED, ORO), ProQuest, SilverPlatter, Thompson Gale Group, WilsonWeb. Medical library reporting 186,392 sessions for the following 6 resources: MD Consult, Health and Wellness Resource Center, Natural Standard, Images MD, Harrison's/Goodman & Gilman, DynaMed. Law library reporting 2,068 sessions for 3 resources.

7 Number of searches reported for 2005–2006 should be 622,432, not 1,105,451 as reported. In 2005–2006 only databases were included in counting number of searches; 2006–2007 count includes both journal collections and databases. Central library reporting 740,246 searches in 2006–2007 for the following 19 databases/vendor gateways: Databases (ABC-CLIO, AP Photo Archive, American Mathematical Association, ARTstor, BioOne, EbscoHost, Elsevier Science Direct, Engineering Information - Engineering Village 2, Thomson ISI Web of Knowledge, Project Muse/JHUP, OCLC Firstsearch, Ovid, Oxford University Press (OED, ORO), ProQuest, SilverPlatter, Thompson Gale Group, WilsonWeb; and 15 journal collections: American Chemical Society, American Institute of Physics, Annual Reviews, American Society of Civil Engineers Journals, BioOne, Blackwell-Synergy, Columbia International Affairs Online, Elsevier Science Direct-Richter, IEEE, JSTOR, Nature publishing Group, Ovid, Project Muse, Society for Industrial and Applied Mathematics (SIAM), Wiley Interscience - Main. Law library reporting 6,125 searches for 3 resources. Data not available for medical library.

8 Number of full-text article requests reported for 2005–2006 should be 437,216, not 556,131 as reported. Central library reporting 568,103 full-text article requests in 2007 from the following 18 resources: journal collections: American Chemical Society, American Institute of Physics, Annual Reviews, American Society of Civil Engineers Journals, BioMed Central, BioOne, Blackwell-Synergy, Columbia International Affairs Online, Elsevier Science Direct-Richter, IEEE, Institute of Physics, JSTOR, Nature publishing Group, Ovid, Project Muse, Society for Industrial and Applied Mathematics (SIAM), Springer Link, Wiley Interscience-Main. Law library reporting 400 full-text article requests from 2 resources. Data not available for medical library.

9a Includes 3,405,282 virtual visits to central library website and 491,012 visits to medical library website; data are not available for law and marine libraries' websites. Data reported for 2005–2006 for central library was an annual estimate derived from 4 months of available data; 2006–2007 data is an annual estimate based on 10 months of available data. Medical library reports 97,380 virtual visits to its catalog. Data are not available for central, law, and marine libraries.

9b Data are not available for central, law, and marine libraries; medical library reports 97,380 virtual visits to its catalog.

9c Virtual visits to the University of Miami Libraries' website from inside the central library are excluded; virtual visits to the medical library's website are not excluded; data for law and marine libraries are not available.

10a In most cases, a collection corresponds to a manuscript collection in the physical archives. The digital archive contains directories that correspond to the physical collections. See University of Miami Libraries Digital Initiatives website: <http://merrick.library.miami.edu/>.

10b Total value represents the combined storage requirement for the digital masters. Derivative files have been excluded from this figure because of their relative insignificance.

10c An item is defined as an information resource that may be comprised of one or more files.

12a Direct cost of personnel reported for 2005–2006 for central library (\$190,866) reflects grant-funded digitization projects only and does not include library-funded projects. Revised figure for 2006 for central library is \$492,076.

12b Direct cost of equipment, software, or contracted services reported for 2006 for central library (\$141,101) reflects grant-funded digitization projects only and does not include library-funded projects. Revised figure for 2006 for central library is \$353,247.

MICHIGAN

Library branches included: Included are Bentley Historical Library, Williams L. Clements Library, Law Library, Kresge Business Administration Library, and University Library.

Excludes the libraries at University of Michigan-Dearborn and University of Michigan-Flint.

1 This is an estimate (Law Library).

**QUESTION
NUMBER** **FOOTNOTE**

MICHIGAN CONT.

- 4 Service began in September 2006 and is for Michigan Law students only (Law Library). Number of virtual reference transactions includes only data from "AskUs & AskUs Now" (our central email reference services) and not data from individual libraries that provide virtual reference outside of these services.

MICHIGAN STATE

Library branches included: Biomedical & Physical Sciences Library; Business Library; Engineering library; Gull Lake Library; International Center Library; Mathematics Library; Planning & Design Library; Veterinary Medical Center Library.

Library branches not included: Law Library.

- 2 This figure includes purchases for individual electronic books on several platforms (NetLibrary, Gale Virtual Reference Library, and others), and also includes payments for packages such as Oxford Reference Online which are mainly composed of electronic monographs.
- 6 Electronic journal platforms such as Wiley Interscience and Databases such as ISI Web of Science were included in the sessions count.
- 7, 8 Electronic journal platforms such as Wiley Interscience and Databases such as ISI Web of Science were included in the search count.
- 10b Electronic journal platforms such as Wiley Interscience and Full Text Databases such as Gale's Academic OneFile were included in the full-text article request count.
- 11b We have seen a marked increase in digitization activity resulting in a large increase in size of storage. This figure also looks suspicious relative to last year in that 2006–2007 figure is in gigabytes while 2005–2006 figure was presented as megabytes.
- 12a Accurate figures were not able to be ascertained as we switched tracking software.

MINNESOTA

Library branches not included: University of Minnesota-Duluth, University of Minnesota-Crookston, University of Minnesota-Morris.

- 1 Includes holdings of individual volumes of e-book sets, not all of which are fully cataloged. Count without these collections is 143,107.
- 6, 8 E-journals from local login counter and SFX report 19 "Most popular journals."
- 9a These figures depict Aleph web catalog sessions. This does not include z39.50 searches of Aleph, library website hits in general, or access to any of the other library services available from the website (e.g., SFX, OneSearch, Assignment Calculator, etc., etc.) Also includes both on- and off-campus, and includes the coordinate campus searches as well.
- 10b 2007 value is submitted as gigabytes, 2005–2006's was submitted as megabytes.
- 10c The University Libraries host continuous tone images and searchable/OAI-harvestable metadata for Libraries and other campus units through its IMAGES system (<http://digital.lib.umn.edu/>), and for the Minnesota Digital Library Coalition (<http://mndigital>).

MASSACHUSETTS INSTITUTE OF TECHNOLOGY

- 10b Note that the value for 2006–2007 is expressed in Gigabytes, as requested. Last year (2005–2006) it was expressed in Megabytes, as requested. The summary form, therefore, displays a huge drop in size (99.9%) due to this different measurement.

MONTREAL

- 1 Excluded 10,037 e-books from Books24x7 (non catalog); cost: 43,290\$ (HEC Montréal).
- 10a Institutional Repository (IR) and Digital Collection (DG) (Bibliothèques UdeM).
- 10b IR: 2.51 GB DC: 300.5 GB (Bibliothèques UdeM). 105 mb (Megabytes) (École Polytechnique de Montréal).
- 10c IR: 678 items DC: 4,973 items (Bibliothèques UdeM).
- 11a IR: 234,198 DC: 80,875 (Bibliothèques UdeM).
- 12a The cost of personnel reported here does not include the cost for cataloguing material being digitized (Bibliothèques UdeM).
- 12b Reported in Canadian Dollars.

NATIONAL AGRICULTURAL LIBRARY

All figures are as of 09/30/2007.

- 10c Accurately reflects increase of digital content in 2006–2007.
- 12a–12b Reflects increased digitization in 2006–2007.

NEBRASKA

- 8a Incorrectly reported the number of resources in 2005–2006.
- 10c This data is unavailable.

QUESTION NUMBER **FOOTNOTE**

NEBRASKA CONT.

- 11a It is possible to determine number of items accessed within Digital Commons@UNL and for specific research sites in the Center for Digital Research in the Humanities only.

NEW MEXICO

Library branches included: Centennial Science & Engineering Library, Fine Arts & Design Library, Parish Library, Zimmerman Library, Bunting Visual Arts Library, Tireman Education Library, Native American Studies Library.

Library branches not included: Gallup Campus Branch Library, Los Alamos Campus Branch Library, Taos Campus Branch Library, Valencia Campus Branch Library.

- 2 Increase is due to one-time purchase of archival collections including segments of the Early American imprints.
- 10b The size of digital collections for 2006–2007 are shown in gigabytes. The total shown for 2005–2006 is in megabytes. The calculation is not converted; therefore, the percent of change is incorrect.
- 11a Increase due to purchase of SORA in 2006–2007.

NEW YORK

All figures are as of 08/31/2007.

Includes Environmental Medicine branch at Sterling Forest. The number of e-books was overstated in 2005–2006 by about 400K.

- 1 Medical Library= 8,605. Dental Library = 124.
- 4 Medical Library = 855. Dental Library= 2,079.
- 5 2005–2006 numbers were miscounted and should have been more around 400,000.
- 7 2005–2006 data was incorrect. 2005–2006 data should have been 4,052,134.

NEW YORK STATE

All figures are as of 03/31/2007.

NORTH CAROLINA STATE

Library branches included: Design, Natural Resources, Textiles, and Veterinary Medicine.

- 9b Does not capture various pass-through searches, canned searches from bookmarks, etc.

NOTRE DAME

- 10a The digital collections of the Notre Dame Archives include page images from manuscript collections, and e-texts on the history and traditions of the university. We also have online scanned images of many of our photographs which can be viewed at a workstation in the archives reading room. The Archives has excluded from this survey many archival collections of born-digital data. URLs include: William Tecumseh Sherman Family Papers at <http://archives.nd.edu/Sherman/>; Diocese of Louisiana and the Floridas at <http://archives.nd.edu/MANO/>; Story of Notre Dame at <http://archives.nd.edu/default.htm>; Bagby Glass Plate Negatives at <http://archives.nd.edu/bby.htm>; George Barnard Photographs at <http://archives.nd.edu/barnard/> (Archives Library).

OHIO

- 6a We include statistics only for major resources for which COUNTER Database 1 reports were readily available from the vendor. Resources included in the statistics for Question (6) include EbscoHOST databases, H.W. Wilson databases, ISI Web of Knowledge databases, OCLC FirstSearch databases, Oxford University Press online reference resources, and ProQuest databases. Naturally, these resources represent only a fraction of our library's total e-resource holdings. Significantly, statistics for JSTOR, LexisNexis, and the databases supported on the OhioLINK Library Consortium's OSearch platform (a major component of our library's resource offerings) are not included due to lack of available COUNTER compliant session statistics.
- 7a We include statistics only for major resources for which COUNTER Database 1 reports were readily available from the vendor. Naturally, these resources represent only a fraction of our library's total e-resource holdings. Resources included in the statistics for Question (7) include EbscoHOST databases, H.W. Wilson databases, ISI Web of Knowledge databases, JSTOR, LexisNexis, OCLC FirstSearch databases, databases on the OhioLINK library consortium's OSearch platform, the OhioLINK Digital Media Center, and ProQuest databases.
- 8a Question (8b) (number of resources for which you are reporting article requests) was assumed to mean the number of databases, not the number of individual e-journals. We include statistics only for major resources for which COUNTER Journal 1 reports were readily available from the vendor. Naturally, these resources represent only a fraction of our library's total e-resource holdings. Resources included in the statistics for Question (8) include EbscoHOST databases, H.W. Wilson databases, HighWire Press, JSTOR, LexisNexis, the OhioLINK Electronic Journal Center, and ProQuest databases.

**QUESTION
NUMBER** **FOOTNOTE**

OHIO STATE

Library branches included: Architecture; Biological Sciences/Pharmacy; Business; Cartoon Research; Children's Hospital; Fine Arts; Food, Agricultural, and Environmental Sciences; Geology; Health Sciences; Journalism; Law; Music/Dance; Science and Engineering; Sullivant; Theatre Research Institute; University Archives; and Veterinary Medicine.

Library branches not included: Agricultural Technical Institute; Ohio Agricultural Research and Development Center; Regional Campus Libraries at Lima, Mansfield, Marion, and Newark.

- 11a Data reflects only use of institutional repository collections (903 collections) and does not include use of digital collections housed elsewhere on the library's website.

OKLAHOMA

- 2 Displays change in collection development practices.
- 6 Demonstrates change in how vendors calculate searches across multiple databases.
- 8, 9b Increased use over 2005–2006.
- 12b Decrease due to purchase of large equipment in 2005-2006.

OKLAHOMA STATE

Library branches included: Oklahoma City, Okmulgee, and Tulsa.

- 10a Collections have an Oklahoma focus. Access through: <http://digital.library.okstate.edu/> and <http://e-archive.library.okstate.edu/>.
- 10b For the four collections residing in our e-Archives, this number represents the size in megabytes for metadata and full-text that actually reside in Digital Commons. It excludes approximately 45 GB of dissertations for which we have metadata but the actual documents are stored in ProQuest's Digital Dissertations.
- 11a These are page views; Collections are accessed through the Library's website. The two gateways for access are: <http://digital.library.okstate.edu/> and <http://e-archive.library.okstate.edu/>.
- 12a Additional funding for the Library's digitization activities have come through the Oklahoma Humanities Council and private foundations.

OREGON

Library branches included: Knight (main), AAA, Visual Resources Collection, Portland Architecture, Science, Math, OIMB (marine biology) and Jaqua Law.

- 8a Accunet, ACM Digital Library, ACS, American Meteorological Society, Annual Reviews, Anthrosource, Atypon-DeGruyter, BioMed Central, BioOne, Blackwell-Synergy, Cambridge Journals, Chemical Society of Japan, Ebsco, Ecological Soc America, Firstsearch, Global Insight-World Market Research, Haworth, Ingenta, IOP, JSTOR, LexisNexis, MetaPress, Michigan, Muse, Nature, Newsbank, OVID, Oxford Journals, Proquest, RSC, ScienceDirect, ScitationPhysicsJournals, Taylor & Francis, Wiley and Wilson.
- 10c These collections are e-Asia, Scholars' Bank (including local government documents), Streaming Media Repository on Tinder, Digital Audio Reserves, Master Video Repository for Ed TV, Visual Resources Collection (VRC), and nine other collections (Doris Ulmann Photographs, Historical Photographs, Manuscripts, Natural History, Percent for Art, Picturing the Cayuse, UO Athletics, UO Office of the President, and Western Waters Digital Library). See <http://boundless.uoregon.edu/digcol/index.html>.
- 11a Includes only e-Asia, Scholars' Bank (including local government documents), Streaming Media Repository on Tinder, Digital Audio Reserves, and Master Video Repository for Ed TV. This data is unavailable for VRC and nine other collections.
- 11b The only collection for which this data is available is Scholars' Bank.
- 12a \$136,553 University funding provided for Streaming Media; \$33,782 grant funding for digitization activities with \$25,974 revenue generated from image sales.

PENNSYLVANIA STATE

Library branches included: Survey includes all University Park Libraries, as well as the Campus Libraries. Campus Library locations are as follows: Abington, Altoona, Behrend, Berks, Beaver, Capital, Delaware, DuBois, Fayette, Great Valley, Hazelton, Lehigh Valley, Mon Alto, McKeesport, New Kensington, Schuylkill, Shenango Valley, Wilkes-Barre, Worthington-Scranton, and York.

Does not include Hershey Medical Library and Dickinson School of Law Library.

- 6a, 7a Consists of A&I and Full Text Journal Services.
- 10a During the period from July 2006 – June 2007 the University Libraries launched several new digital library collections and added additional content to existing digital collections. The digital collections website is: <http://apps.libraries.psu.edu/digital/index.cfm>.
- 11a The entire listing and links of all the digital library collections can be found at Digitized Collections at Penn State. See: <http://apps.libraries.psu.edu/digital/index.cfm>.

**QUESTION
NUMBER** **FOOTNOTE**

PENNSYLVANIA STATE CONT.

- 12a Support for building digital library collections included external funding by the state of Pennsylvania through legislation requiring the four statewide Library Resource Centers to create on-line resources for the citizens of Pennsylvania.

PRINCETON

- 4 Chat/e-mail Reference Service is gaining popularity.

PURDUE

- Includes the library system on the West Lafayette campus, consisting of 11 subject libraries, an undergraduate library, and an archives and special collections unit.
- 6a, 7a Resources reported are databases and services, from COUNTER-compliant and other vendors, which include bibliographic, data, and other information, and/or fulltext.
- 8a Resources reported are journals and databases from COUNTER-compliant (7) and other (4) vendors.
- 10a Selected materials from archives and special collections: <http://e-archives.lib.purdue.edu/collections.php> (12 collections; 232,594.77 MB; 11,337 items) and technical reports, working papers, presentations, etc. from university departments and centers, plus university press publications: <http://docs.lib.purdue.edu/thepress/> (43 collections; 21,811.2 MB; 7,568 items).
- 11a See footnote for (10) concerning URLs.
- 12a Includes \$6,500 from LSTA/IMLS grant funds expended to digitize writings and paintings of George Ade in collaboration with Tippecanoe County Historical Association.
- 12b Includes \$30,798 from LSTA/IMLS grantfunds expended to digitize writings and paintings of George Ade in collaboration with Tippecanoe County Historical Association.

QUEENS

All figures are as of 04/30/2007.

Library branches included: These statistics cover all Queen's libraries. Stauffer Humanities and Social Sciences, Douglas Engineering and Science, WD Jordan Special Collections and Music, Lederman Law Library, Bracken Health Sciences Library, and Education.

RICE

- 1 Does not include document e-books.

RUTGERS

- 7a Vendor supplied indexes and databases.
- 10c 2005–2006 reported incorrectly as 18,214. Correct figure is 8,812 (Newark Law Library).
- 11a 48,946 visitors were recorded (Newark Law Library).
- 11b 145,376 page views reported (Newark Law Library).

SASKATCHEWAN

Increase due to additional provincial government funding.

- 2 Library branches included: Main, Health Sciences, Natural Sciences, Law, Engineering, Education and Veterinary Medicine.

SOUTH CAROLINA

Main campus libraries are included: Thomas Cooper Library, South Caroliniana Library, Business Library, Math Library, Music Library, and Film Library.

SOUTHERN CALIFORNIA

Library branches included: USC Libraries, Norris Medical Library, Wilson Dental Library, Call Law Library.

- 7 Data was obtained directly from vendor content providers.
- 6 Data came directly from Ovid (14 databases) and the National Library of Medicine (1 database) (Health Sciences Library).
- 7 Included are the PubMed statistics for the calendar year 2007. PubMed statistics for the fiscal year (2006–2007) were unavailable (Health Sciences Library).
- 9b The number reported last year was incorrect. It erroneously included all pages viewed in the catalog (Health Sciences Library).

**QUESTION
NUMBER** **FOOTNOTE**

SOUTHERN ILLINOIS

10a Includes A&I and Full text databases and journal packages.

6a, 7a, 8a The SIUC digital collections are hosted on the CONTENTdm server at CARLI in Champaign-Urbana, IL. They can be accessed at <http://collections.carli.illinois.edu>. These digital collections are derived from collections of photographs and other visual objects that are part of the Special Collections Research Center (SCRC) in Morris Library at SIUC. The Doc Horrell Photo Collection is made up of digitized photographs of coal mining activities in Southern Illinois. The Modcai Gorelik Collection is made up of digitized theatrical set designs and related materials. The SCRC General Collection contains digitized photographs from many photo archives owned by the SCRC.

SUNY-ALBANY

6–7a These represent our most heavily used databases. Providers are: Thomson Gale, HW Wilson, Ebsco, SilverPlatter/Ovid, Proquest and OCLC.

8, 8a These represent our most heavily used journal packages and full text databases. Providers are: Cambridge Scientific, LexisNexis, Ebsco, Proquest, Elsevier and JSTOR.

12a, 12b We are unable to completely “break out” personnel costs for these activities.

SUNY-STONY BROOK

Library branches included: Science and Engineering; Math, Physics, Astronomy; Chemistry; Marine Sciences and Music.

Does not include Stony Brook University Health Sciences Library.

SYRACUSE

6a The databases used for log-in numbers are a separate set of databases than those reported for session numbers. Not all “counter-compliant” vendors provide both logins and sessions in their statistical reports.

TENNESSEE

10b The question was to be answered in megabytes for 2005–2006.

TEXAS A&M

All figures are as of 08/31/2007.

Library branches included: Sterling C. Evans Library, Annex Library, Medical Sciences Library, Jack Williams Library (Galveston), Architecture Library, Cushing Memorial Library, West Campus Library, Policy Sciences and Economics Library, TAMU Qatar Library.

TEXAS TECH

All figures are as of 08/31/2007.

Library branches included: Harrington Library TTUHSC/Amarillo, Montes-Gallo Library of the Health Sciences TTUHSC/El Paso, Library of the Health Sciences TTUHSC/Odessa, Preston Smith HSC Library, Architecture Library, Vietnam Library, Southwest Collections/Special Collections Library, Law Library.

TULANE

Library branches included: Turchin Business Library.

1 We have access to 56,278 e-books on our web site, but not yet in the catalog.

2 Expended \$43,442 for e-books not yet described in the library catalog.

6–9 This data not yet collected here.

9a, 9b Data not yet collected here (Medical Library).

9c–11b This data not yet collected here.

UTAH

Figures reported are for Marriott Library only.

12a \$90,841 of personnel expenses paid by grants.

12b \$83,786 of expenses paid by grants.

VANDERBILT

10c We reported an incorrect items count for 2005–2006. The correct figure is 928,617. For 2005–2006 we appear to have reported disk storage in KB rather than in MB. Our corrected total for 2005–2006 is 92,353,636.

10b We reported an incorrect items count for 2005–2006. The correct figure is 928,617.

**QUESTION
NUMBER** **FOOTNOTE**

VIRGINIA

- 8a Journals and databases include: ACS Journal, AIP/APS Journal, American Meteorological Society (Allen Press), American Society of Microbiology, Annual Reviews, Association of Computing Machinery Digital Library (ACM Digital Library), BEPress, BioOne, Blackwell Science, Cambridge University Press, Cell Press, Columbia International Affairs Online (CIAO), Duke University Press, EBSCO2, EdITLib Digital Library, Emerald, Europa World Plus, Harpweek, Highwire, HW Wilson, IEEE Xplore, Infotrac One File (Gale), Institute of Physics (IOP), JSTOR (Journal Storage Project) Lawrence Erlbaum Associates, LEXIS/NEXIS Academic Universe, LEXIS/NEXIS Congressional Universe, LEXIS/NEXIS Statistical Universe, Liebert Online, Nature Publishing, Newsbank, Ovid, Oxford UP, Periodicals Index Online, Project Muse, Proquest Periodicals, PsycArticles, Royal Society of Chemistry, Sage, Science (Magazine), ScienceDirect, Scientific American Archive Online, SIAM, Springer-Link, Taylor & Francis, University of Chicago Press and Wiley InterScience.
- 10c See http://www.lib.virginia.edu/digital/collections/finding_digital.html.

WASHINGTON

- All statistics include the Health Sciences Library.
- 4 Includes Main, Health Sciences, Law, Bothell and Tacoma branches.
- 8a Includes article requests from 9 large e-journal packages.
- 9a, 11a Depicts number of sessions.

WASHINGTON STATE

- Library branches included: Includes WSU-Vancouver, WSU Tri-Cities, WSU Energy Library, WSU Spokane, and WSU Intercollegiate College of Nursing.
- 1 Includes government documents and theses. Does not include locally digitized material unless it has been cataloged and classified.
- 6, 7 Includes indexes (e.g., Art Index), full-text databases (e.g., Lexis-Nexis Academic), reference databases (e.g., Oxford English Dictionary), e-book collections, and others.
- 8 Includes full-text article requests from electronic journals such as would be included in a COUNTER Journal Report 1. This figure is for calendar year 2006. The figure reported for 2005–2006 was for July 2005–June 2006 and included 892,326 requests that do not meet the COUNTER definition of full-text article or would not be included in a COUNTER Journal Report 1.
- 10a The WSU Libraries digital collections include digitized special collections materials, including archival finding aids and digital photographs, maps, and letters. The WSU Libraries serves as the host site for the Northwest Digital Archives, and also has an active institutional repository service.

WASHINGTON UNIVERSITY-ST. LOUIS

- Library branches included: Medical, Law and all libraries under Central Administration (Art, Biology, Business, Chemistry, East Asian, Earth Sciences, Math, Music).
- 1 Includes 334,208 in main library, 31,083 in Law and 1,319 in Medical Library.
- 2 Includes \$115,893 for the main library and \$42,00 for the Medical Library; expenditure figures are not available for the Law Library.
- 4 Question (4) applies to the main library only; figures are not available for the Law or Medical Libraries.

WATERLOO

- All figures are as of 04/30/2007.
- 2 Partial expenditure only; does not include expenditures for e-books received in vendors' packages.
- 6 Includes 247 databases from 15 indexes & abstracts providers: ABC-Clio, ACS, AMS, Beilstein, CABI, CSA, Chadwyck, E Vill, Ebsco, Gale, ISI, Ovid, ProQuest, Scopus, Wilson.
- 7 See footnote for (6).
- 8 Includes ABI, ACM, ACS, AGU, AIP, Annual Reviews, ASCE, ASME, BioMed, BioOne, Blackwell Synergy, BMJ, Cochrane, Dekker, Elsevier, Emerald, GSA, Highwire, IEEE, Ingenta, Inst of Physics, JSTOR, MetaPress, Nature, Ovid, Oxford, PNAS, Project Muse, PsycARTICLES, RSC, Sage, ScholarsPortal, Wiley Interscience, Wilson.
- 8a Total count has not been de-duped.
- 9a Decrease from 2005–2006 relates to changes in data gathering methodology.
- 9b Number of visits not available; library catalog does not require user login. Total searches: 1,920,510.
- 10a Consists of 1) e-theses; 2) e-reserves.
- 10c Includes: e-theses 2,054; e-reserves 1,875.
- 11a E-reserves only; data not available for e-theses.

QUESTION NUMBER	FOOTNOTE
-----------------	----------

WAYNE STATE

All figures are as of 09/30/2007.

- | | |
|-----|--|
| 6 | This is derived from Counter db1 reports where available. |
| 6a | This is a count of all ERM resources that are licensed. Does not include public domain resources. |
| 7 | This is derived from Counter db1 reports where available. |
| 7a | This is a count of all ERM resources that are licensed. Does not include public domain resources. |
| 8 | This is derived from Counter JR1 Reports from as many vendors as it has been possible to access. This number will always likely be 10-20% lower than "real" figures since it is not possible to capture this data from all sources accurately. |
| 8a | This is basically the number of unique e-journal titles managed by Serials Solutions and in the catalog. |
| 10a | Consists of 13 image collections and 1 text collection. |

WESTERN ONTARIO

All figures are as of 04/30/2007.

Library branches included: ARCC, Business, Education, Law, Music, Allyn & Betty Taylor (Engineering, Health Sciences, Medicine & Dentistry, Science) and The D.B. Weldon Library (Arts & Humanities, Social Science, Information and Media Studies).

- | | |
|----|--|
| 4 | No longer being counted separately from other reference transactions in most of the Western Libraries. |
| 9c | We do not differentiate between virtual visits within the libraries and externally. |

WISCONSIN

Library branches included: UWDC (UW Digital Collection), and Wisconsin State Historical Society when noted.

Library branches not included: College Undergraduate Library, Ebling Health, Law, Map, Primate, SLIS, Wendt Engineering.

- | | |
|-----|---|
| 9a | Reports only website statistics for Art, Archives, Biology, Business, Chemistry, Geography, Math, Memorial, Music, Physics, Social Science Reading Room, Social Work, Special Collections, Steenbock, Historical Society, CIMC. Does not include College Undergraduate, Engineering, Law and Ebling Health libraries. |
| 10a | UW Madison Libraries host the University of Wisconsin Digital Collections, a system-wide initiative including content from several UW campuses, but digitized, developed, and hosted in a central facility. Collections containing only bibliographic citations were not included in the statistics cited here. Wisconsin State Historical Society also included. |
| 10c | Wisconsin State Historical Society also included. |
| 11b | Local statistical processing provides counts of search sessions, not individual searches or Web page hits. Collections and objects are accessed from the UWDC Collections page (http://uwdc.library.wisc.edu/Collections.shtml), from individual libraries' Web sites, from search services such as Google and Yahoo, or from metadata harvested using the OAI-PMH and included in services such as OAIster. |

YALE

All Yale University Library branches are included except for the Law Library.

- | | |
|--------|--|
| 6a, 7a | Data is from indexing/abstracting and full text databases. |
| 8a | Figures are for journal titles. |

YORK

All figures are as of 04/30/2008.

Library branches included: Scott Library, Bronfman Business Library, Steacie Science and Engineering Library, Frost Library (Glendon college), Osgoode Law School Library (questions (1) and (2) only).

- | | |
|------|---|
| 1, 2 | Includes Law Library. |
| 8a | Number of fulltext pdf and html searches for 25 publishers and packages does not in any way reflect the full use of our e-journals and databases. |

ARL MEMBER LIBRARIES AS OF JANUARY 1, 2008

The Association of Research Libraries (ARL) represents the interests of 123 libraries that serve major North American research institutions. ARL operates as a forum for the exchange of ideas and as an agent for collective action to influence the forces affecting the ability of these libraries to meet the future needs of scholarship. The ARL Statistics and Measurement program is organized around identifying, collecting, analyzing, and distributing quantifiable information describing the characteristics of research libraries. The program offers publications and special member services, and collaborates with other national and international library statistics programs.
